

The Midget and the CUB

Henderson

MIDGET LOADER for Farmall CUB

The Henderson Midget Loader and the Farmall Cub are ready to do a day's work together! Weighs approx. 500 lbs. Rugged; one man can easily attach or detach. No complicated cables, chains, hooks, sprockets or pulleys. Low clearance—it gets in or out of small spots easily, quickly. No bulky framework to obstruct vision. Complete with combination fork, scoop, and front end pump that can operate loader at all times. Two precision machined cylinders.

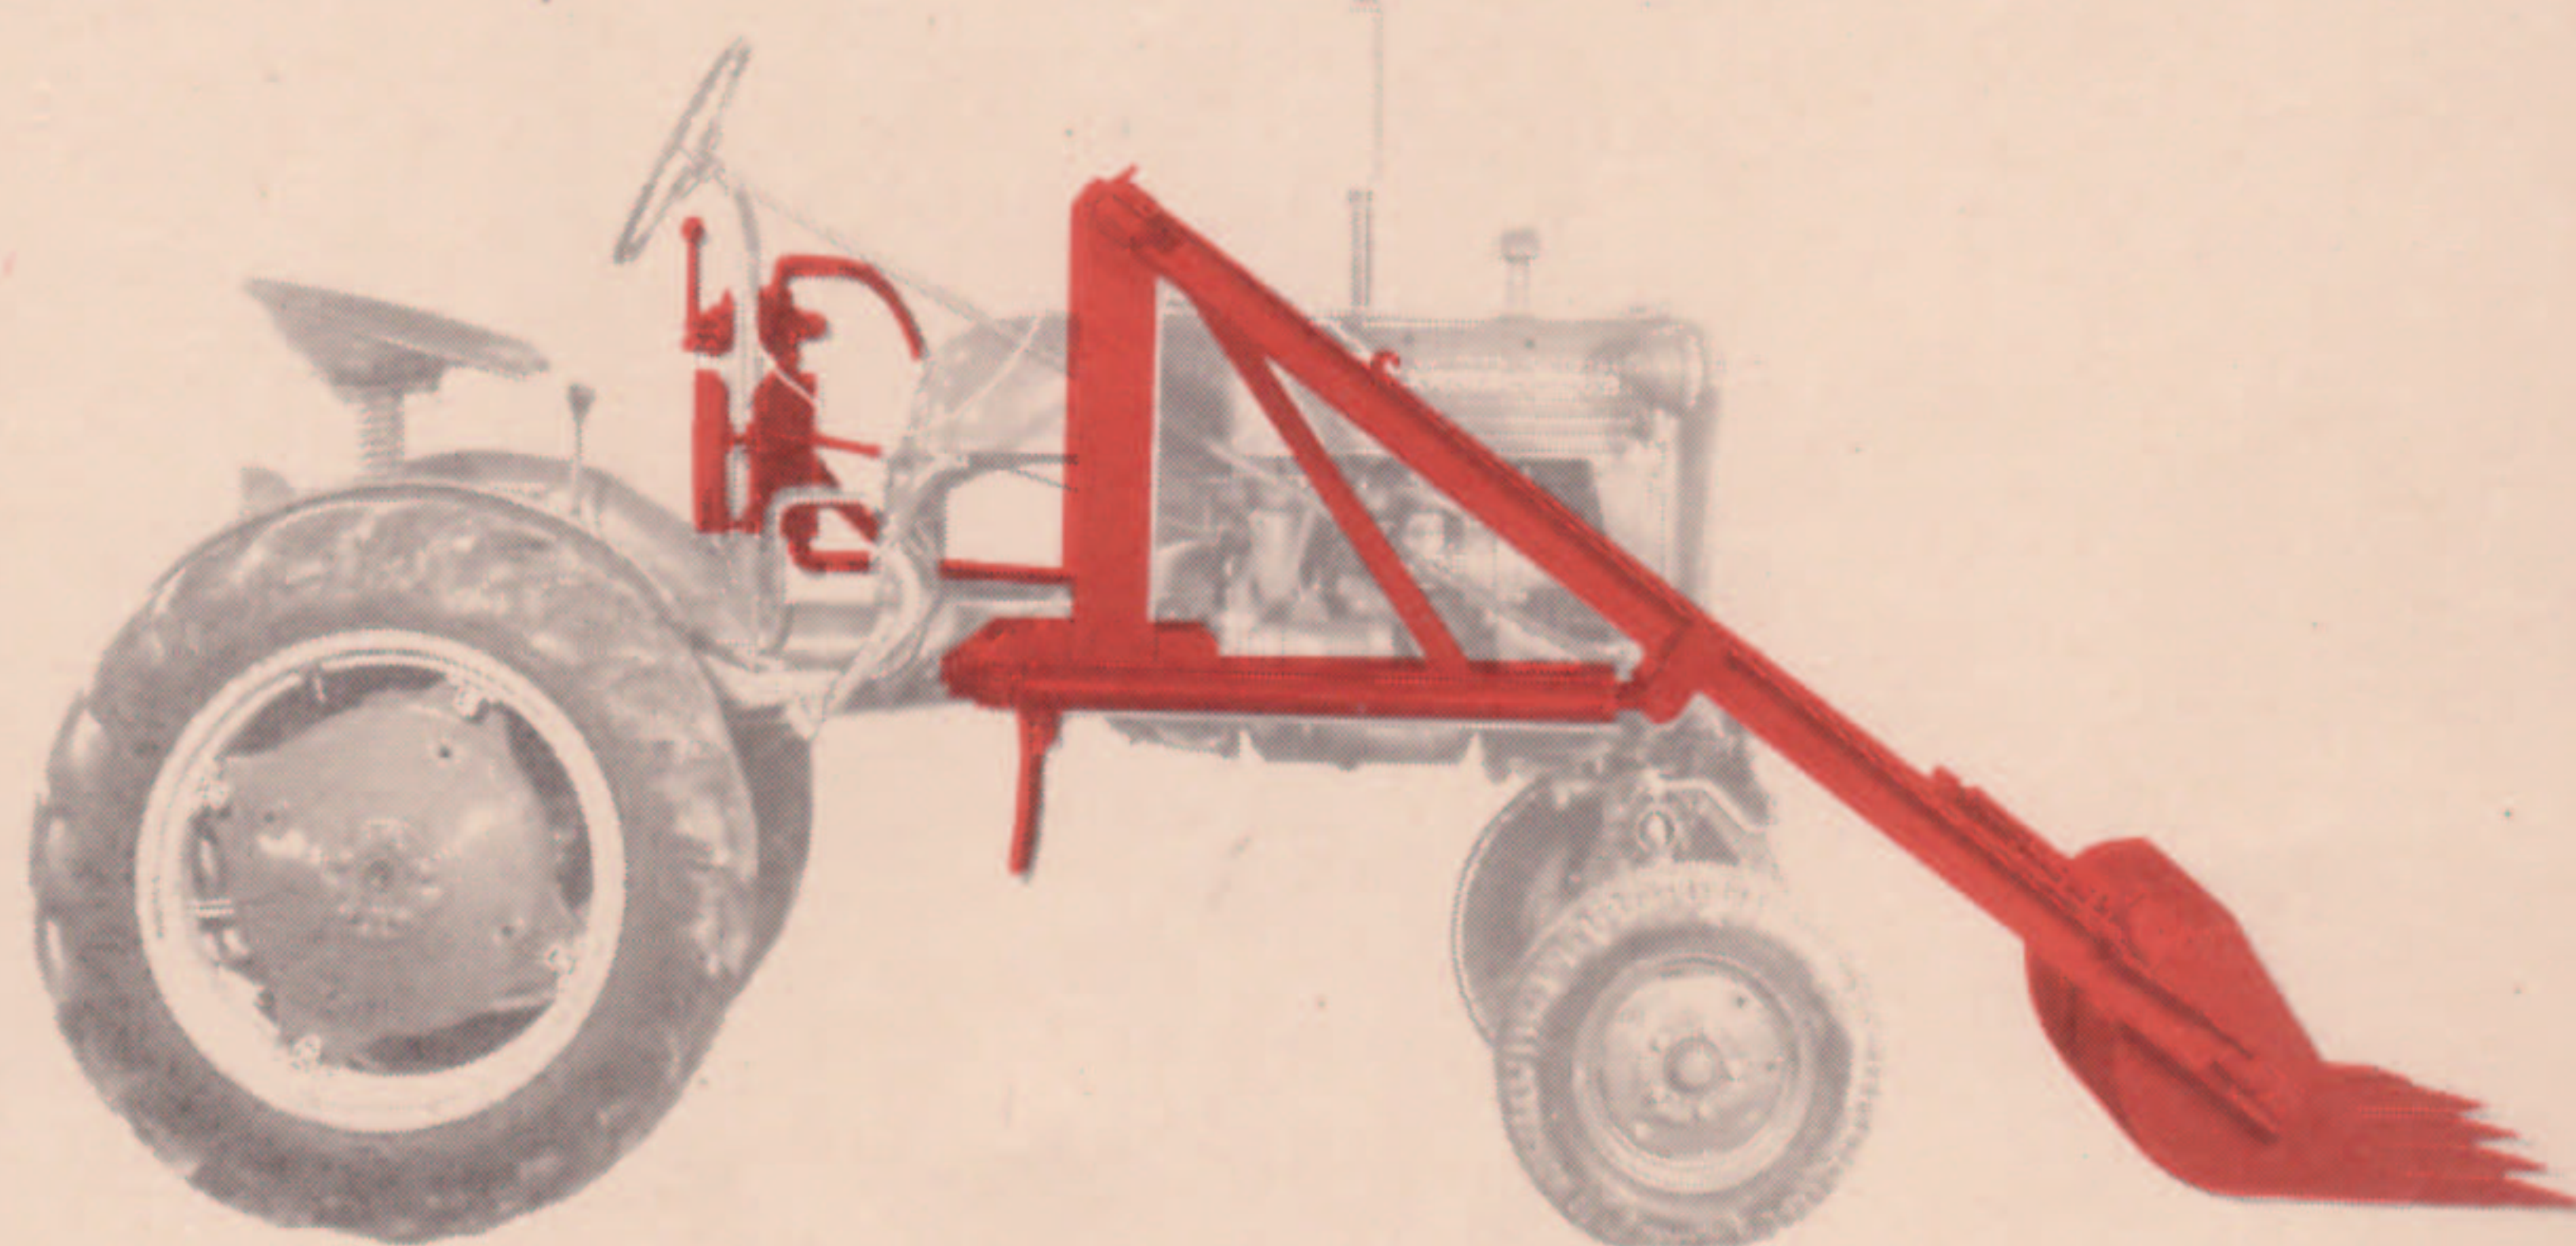

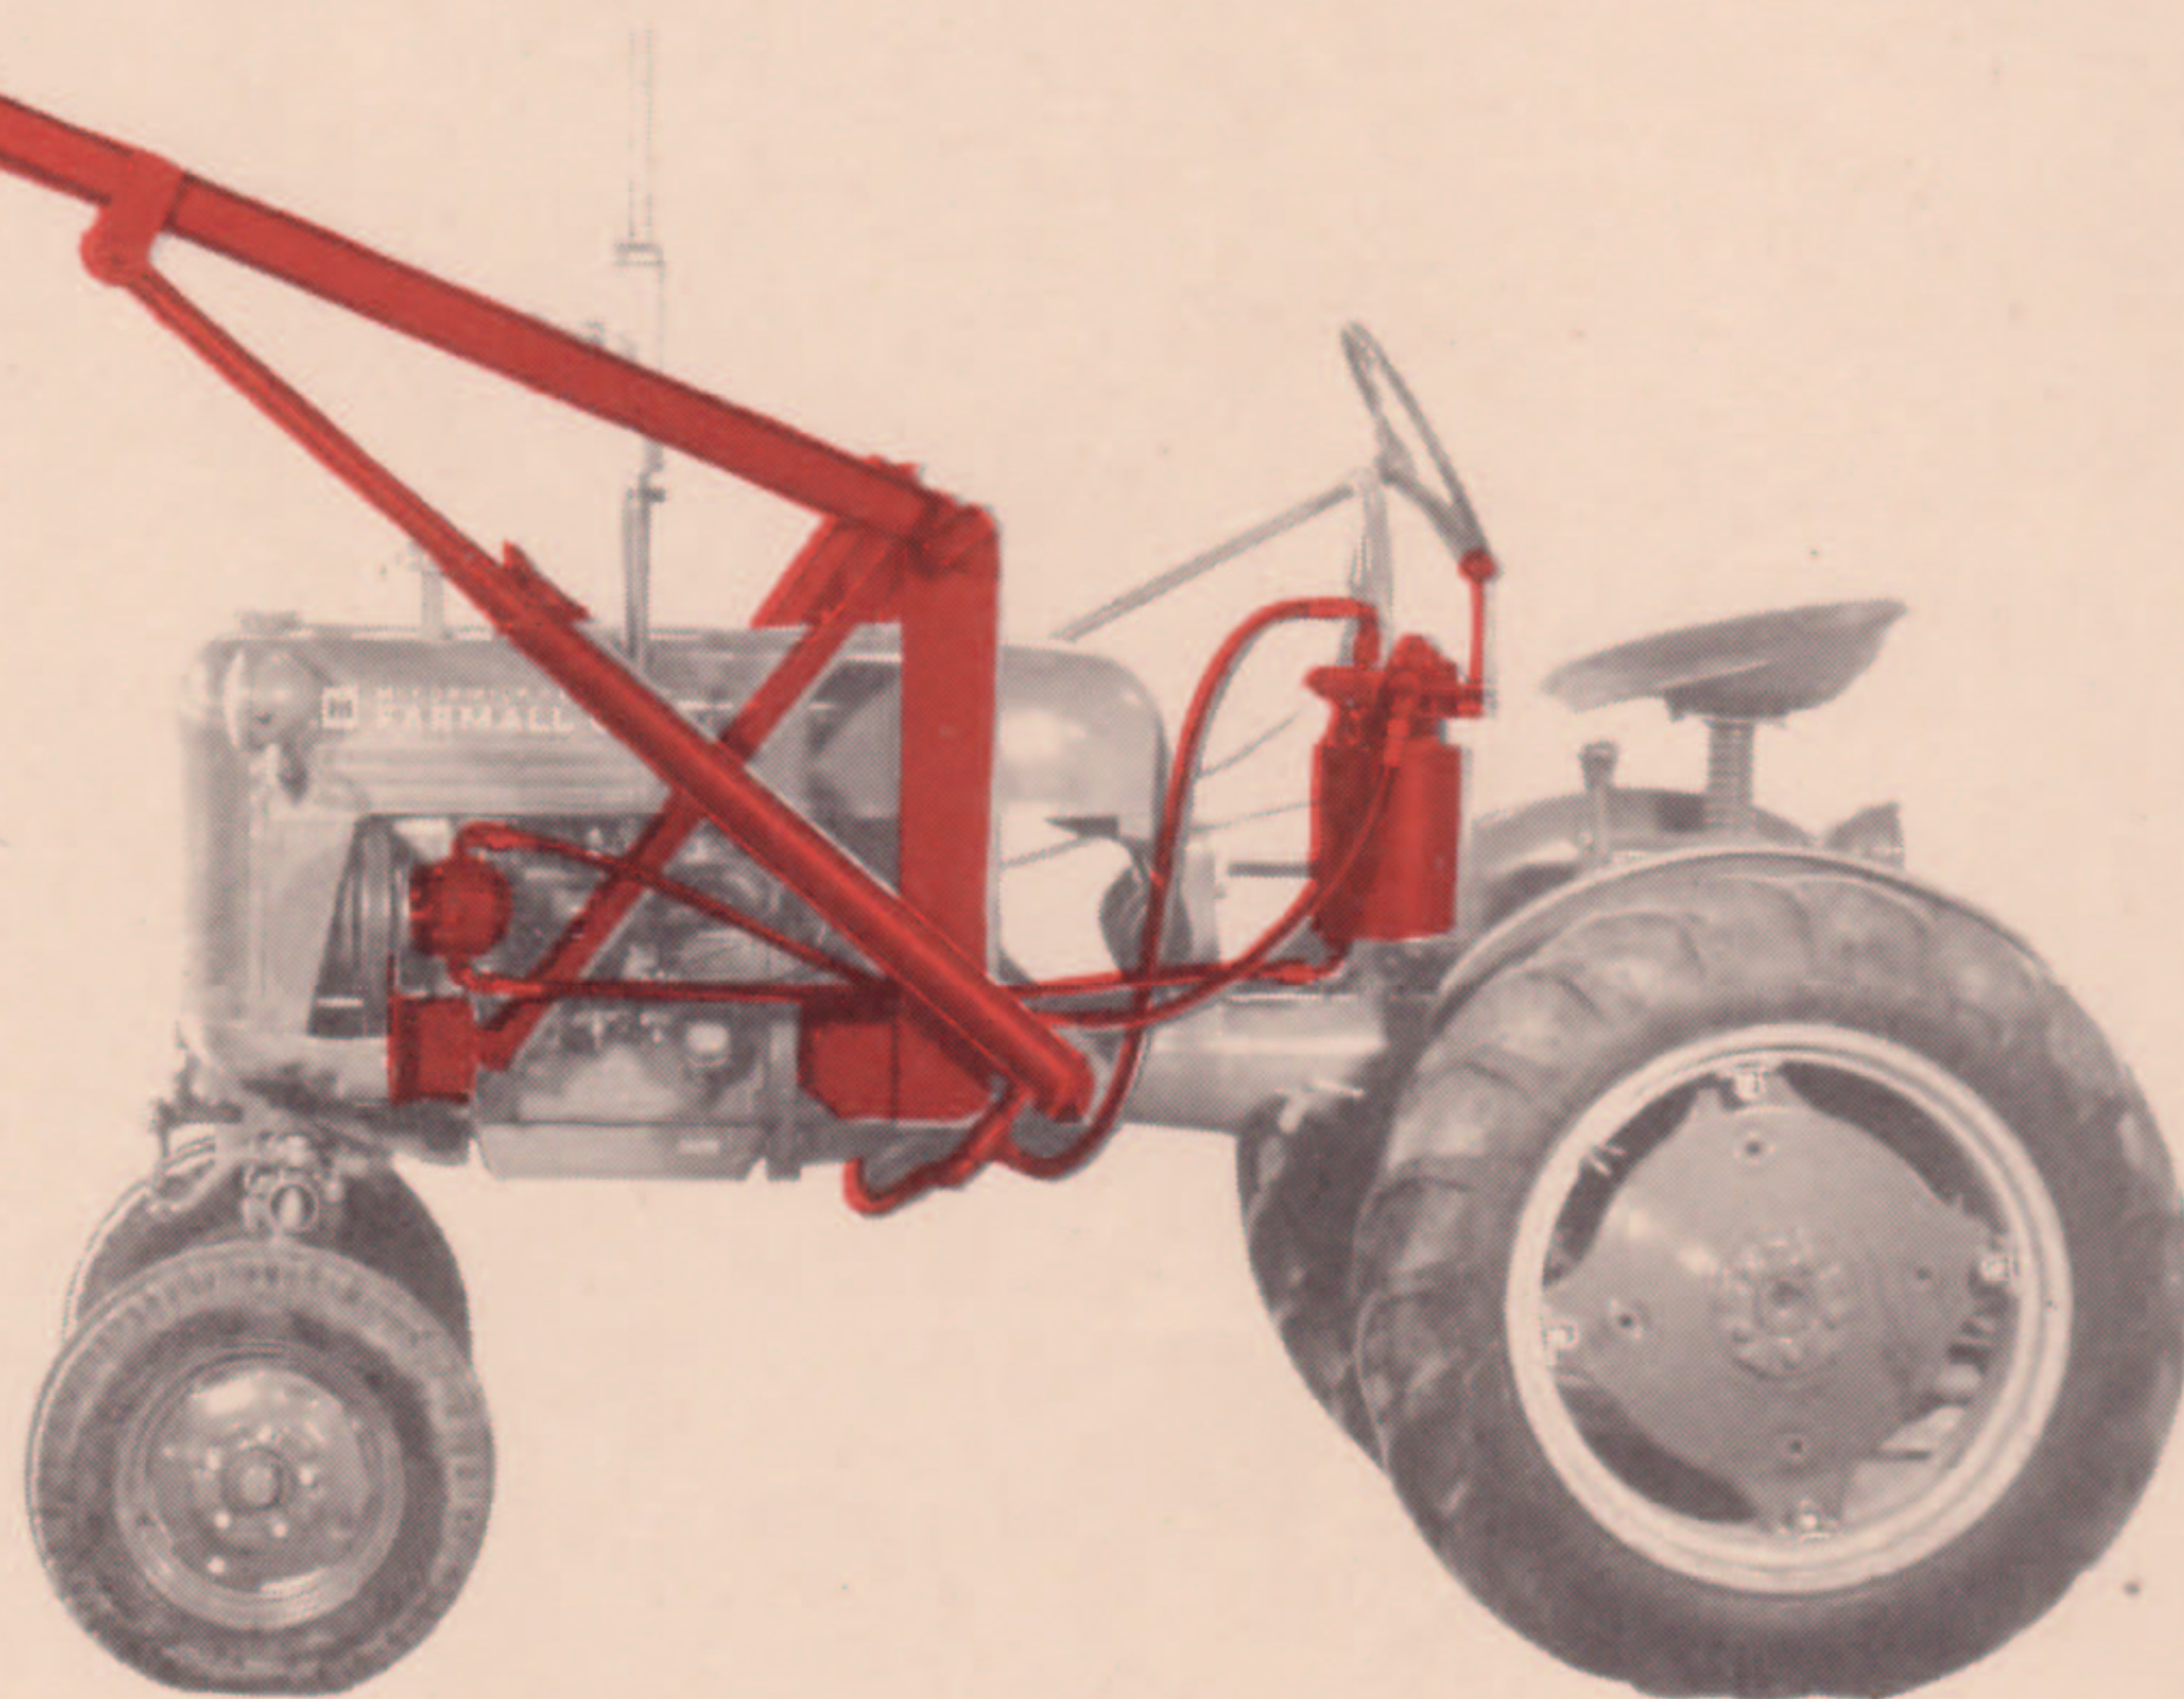

Power and Strength of a Giant

- Lifts 9 feet.
- Simple, powerful, sure hydraulic control.
- Safe—no sudden stops or drops.
- Guaranteed against defective workmanship or material.
- Angling dozer blade and dirt bucket attachments also available.
- Complete with combination fork and scoop and front end pump.
- Use on small tractor—save hours of back-breaking chores around yard, orchard, truck farm, livestock farm, etc.

Manure bucket—29" x 32" x 15"; bucket capacity—3½ bushels. Midget snow bucket—25" x 35" x 5½"; weight—225 lbs. Guaranteed against defective workmanship and material. Angling dozer blade and dirt bucket attachments also available.
